

Beauty. Performance. *Power.*

TSC PowerXT<sup>®</sup> Solar Panels with Pure Black<sup>™</sup> Technology

**TSC**<sup>®</sup>  
High Performance Solar

## Highest Power Output, Most Attractive

TSC's patented technology is leading the way in premium residential solar. Our flagship solar panel, the PowerXT<sup>®</sup>, delivers greater than 20% efficiency, a sleek Pure Black™ design, shade resistance, and proven reliability through TSC's advanced cell design, superior panel architecture and innovative assembly techniques. TSC's high performance solar panels generate maximum power in minimum space. PowerXT<sup>®</sup> solar panels, the choice of discerning installers and homeowners, are designed and engineered in the U.S.

### Best Performance

PowerXT solar panels achieve 20+% efficiency and ultra-high output to maximize energy production on the roof.

### Beauty & Power

Pure Black™ technology with no visible circuitry gives our solar panels the most beautiful all-black appearance on the market.

### Comprehensive 30 Year Warranty

Superior quality and reliability backed by an industry leading 30-year Parts, Performance, & Labor warranty.

### Advanced Technology

PowerXT technology is designed to increase reliability by eliminating common failure points, and provides superior shade tolerance.

# The TSC Advantage
